LIGHTING MFG., INC.

Project: Type: Product Catalog Submittal:

INTERIOR MICRO WELL LIGHT

Micro Well Light for interior application can create dramatic lighting effects! Its small scale allows it to be placed into areas normally unavailable to light fixtures because of their size. The LED light source is recessed below a honeycomb louver to minimize surface brightness. The decorative trim overlaps the housing edge and is available in various finishes to complement different types of textures, colors, surfaces and architectural compositions. Custom sizes available to for other finished floor depths.

Construction: Aluminum or Brass rough-in housing, brass lamp compartment and brass top plate.
